	Declaration of contamination Form	FOR-SERV-024 V. 5 / 2026-06-11 Act.: JSW / checked: RMK
---	--	---

Declaration of contamination of electrodes, pumps, valves and other components of a SENTECH Instruments plasma system.

Repair or maintenance of electrodes, pumps, valves, and other components can only be carried out if a fully completed contamination declaration is available in advance and its evaluation leads to a positive assessment.

A separate declaration must be submitted for each unit.

If SENTECH is unable to process the parts sent in for technical, safety-related, or health-endangering reasons, the shipment will be refused and/or returned to the sender. Sending the contamination declaration to SENTECH before sending the parts is therefore necessary for evaluation purposes. This way, we can check the processing options and let you know in advance whether a repair is possible.

The declaration may only be completed and signed by authorised specialist personnel. The signatory assumes full responsibility for the accuracy of the information provided.
